Key Terms Summary

UBoss LLC — Terms of Service

A Delaware Limited Liability Company
Operating in the Commonwealth of Massachusetts

Effective Date: September 9, 2026 | Legal Pack v1.1

What is this document?

This is a **plain-language summary** of the key terms governing your use of UBoss LLC's automation services. The full, legally binding Terms of Service are available at uboss.ai/en/legal/terms and are incorporated by reference into this agreement. In the event of any conflict between this summary and the full Terms of Service, the full Terms shall control.

What We Do

UBoss LLC builds, hosts, and operates custom automation workflows for small and mid-sized businesses. We use tools like n8n, Twilio, and other integrations to automate tasks such as form processing, notifications, scheduling, and communications — all tailored to your business needs.

What You Pay

Pricing Model — Custom, Not Tiered

UBoss does not sell packaged plans. Every client is quoted individually. Your engagement normally has two parts:

- **A one-time build fee** — fixed, agreed in advance, quoted before any work starts, covering development and deployment of your automation.
- **An ongoing service fee** — normally monthly, covering the services you engage on a continuing basis, for as long as you engage them.

Your ongoing fee is priced from three things: the **services** you engage, their **complexity**, and the **volume** they carry. Services can include running and maintaining your automations, managing third-party vendor accounts on your behalf (such as Twilio messaging), and dashboards, KPI reporting, and review sessions where we go through the numbers with you. Your actual figures, the services included, and the volume band they cover are in your Service Agreement, not in this document.

- Service renews monthly unless cancelled with **30 days written notice**.
- **We give 60 days written notice before raising your ongoing fee — and you can cancel instead of paying it**, with nothing owed beyond fees already accrued.
- If your volume sustains well above your agreed band, we will show you the figures and propose an adjustment with **30 days notice**. You can reduce volume or cancel instead.

- Third-party costs we don't control (carrier and messaging fees, cloud costs) may be passed through at no more than the actual increase, with **30 days notice**. The same right to cancel applies.
- Your build fee is fixed for the agreed scope. Extra scope is quoted separately and needs your written approval first.
- Late payments may result in service suspension after a 10-day grace period.

What You're Responsible For

As our client ("Tenant"), you agree to:

- Provide accurate information and maintain proper consents from your customers
- Comply with all applicable laws, including TCPA, CAN-SPAM, and Massachusetts state law
- Not use our automations for spam, phishing, or any illegal activity
- Comply with Twilio's Acceptable Use Policy for any messaging services
- Notify us promptly of any opt-out requests or complaints from your customers

Messaging & Communications

Important — Messaging Rules

- All SMS/WhatsApp messaging is **transactional only** — no promotional or marketing messages
- You must have **proper consent** from anyone who receives messages through our system
- Recipients can reply **STOP**, **ALTO** or **PARAR** at any time to opt out
- Standard message and data rates may apply
- For complete SMS messaging terms — message frequency, data rates, opt-out instructions, and carrier disclosures — see the **SMS Messaging Program** section of our Privacy Policy at uboss.ai/en/legal/privacy

Who Owns What

- **Your data:** You own all data you provide to us or that is collected on your behalf. You may request export at any time.
- **Our work:** UBoss retains ownership of all automation templates, frameworks, code libraries, and reusable logic. You receive a **non-exclusive license** to use workflows built for you for the duration of your subscription.
- **AI outputs:** Any AI-generated content is provided "as is" with no guarantee of accuracy, completeness, or fitness for any purpose.

Dashboards & Business Insights

Information, Not Advice

If we build you dashboards or talk through your KPIs, please understand what that is and what it isn't:

- Dashboards report what your connected systems contain. **We don't audit or verify your source data** — bad inputs produce bad charts.
- Any forecast or trajectory is a **mathematical extension of your past data**, not a prediction and not a guarantee of any result.
- **We are not financial, investment, accounting, tax, or legal advisors**, and nothing we give you is advice of that kind.
- **We do not help you get financing.** UBoss does not broker, arrange, or assist with loans, credit, or investment, and our reports are not prepared for submission to a lender or investor.
- General business observations we offer are opinion, offered as a courtesy. For financial, tax, or legal decisions, talk to a licensed professional.

Liability & Disclaimers

Key Protections

- Services are provided **"as is"** — no warranties on uptime, accuracy, or uninterrupted operation
- UBoss's total liability is capped at **fees you've paid in the prior 12 months** (or as otherwise agreed in writing)
- You agree to **indemnify UBoss** for claims arising from your misuse of our services or failure to obtain proper consents

Termination

- Either party may terminate for any reason with **30 days written notice** — email support@uboss.ai and we will confirm in writing.
- Either party may terminate immediately for a material breach the other party fails to fix within **15 days** of written notice.
- UBoss may suspend or terminate immediately for non-payment or violation of the Acceptable Use Policy. **Suspension is not termination** — your data is preserved and your fees continue until the agreement itself ends.
- After termination, your data is retained for **90 days** so you can export it free of charge, then securely deleted, unless a longer period is required by law or a legal hold.
- **You keep your data. You don't keep the automations** — your license to use the workflows ends when the agreement does. Transferring a workflow to you or another provider is possible but needs a separate written agreement.

Privacy & Data

Our full Privacy Policy is available at uboss.ai/en/legal/privacy and governs all data collection, processing, storage, and deletion. By signing below, you acknowledge you have reviewed or been given access to the Privacy Policy.

Governing Law

These terms are governed by **Delaware law** for corporate matters and **Massachusetts law** for data privacy and consumer protection. Disputes will be resolved through good-faith negotiation, then binding arbitration in Massachusetts if needed.

Acknowledgment & Agreement

By signing below, I confirm that I have read and understand this Key Terms Summary. I agree to be bound by these Key Terms and by UBoss LLC's full Terms of Service (available at uboss.ai/en/legal/terms), which are incorporated herein by reference. I also acknowledge that I have been provided access to UBoss LLC's Privacy Policy.
